

PRODIGY® PLECTRUMS

Introducing the new range of Prodigy Plectrums for the Bouzouki
ΑΑΪΚΗ & ΚΑΑΣΣΙΚΗ (*penneV*).

As with all Prodigy products their plectrums are manufactured to a high standard using high quality celluloid which produces a very clear, sweet and clean sound. The Prodigy Plectrums come in 2 shapes and are the very first designed and manufactured especially for the Bouzouki. Both shapes are triangular and have 3 identical perfect playing surfaces.

A great deal of research and development has been carried out on this new product. Over the years Prodigy have acquired plectrum samples from the world's top players to determine the best shapes to manufacture. A professional technical artist was also commissioned in order to achieve perfect symmetry for the plectrums. The chosen material is celluloid being the Bouzouki players' preferred material. Most of the plectrums are in the 'Medium' gauge. Also available are 'Medium/Heavy' and 'Thin' gauges. A new logo has been created for the plectrums **PRODIGY PLECTRUMS**

The '**Medium**' gauge plectrums are packaged in quantities of 12 available in both shapes. The ΑΑΪΚΗ & ΚΑΑΣΣΙΚΗ 6 available colours:

1. Abalone Shell
2. Tortoise Shell
3. Clear Shell
4. Black
5. Black Pearl
6. White Pearl

'Thin' plectrums are in **White** available in both shapes (bags of 12 or 50)

'Medium/Heavy' plectrums are available in **Gold Pearl** in both shapes (bags of 12 or 50).
